Directions for Reward Charts

If desired, click on the text, "Reward Chart" and add the student's name to the front of the text. The chart is intended to be used for instructions below.

Click the Present button, Slideshow or Play at the top of the chart to start with a student. The images will all appear in black and white. When a student completes one task, click the circle and the black and white image will disappear revealing a color image. Once all circles have been clicked, the student earns the reward that was chosen.

To reset the board back to all black and white images, press escape on your computer. The first circle is pre-filled, it will reach the circle. If this was done by accident, simply go back to Present and click the number times the student had earned a dot. Now continue until the board is full.
